

RULES FPAK/CPR CHAMPIONSHIP OF PORTUGAL

FPAK Campeonato de Portugal de Ralis

PRESENTATION /

New Season of the FPAK Portuguese Championship: renewed identically, no change except from the addition of 5 fictitious rally (see calendar). We want to get as close as possible to the real championship while adding a personal note by adapting, simplifying to see ignoring certain rules and subtleties but including VH and NGP among the modern.

There will be 3 Modern /Historic VHC/ClassicNGP championships.

Be aware that there is no wrc in Portugal that ride in the league just like in France.

The regulation will be considered read and approved, as soon as a person starts an official rally session.

Each participant is responsible for his computer equipment, as such he must carry out the proposed updates of RSRBR2022 in order to be able to participate in the FPAK / CPR (Portuguese Rally Championship) 2022

ORGANIZATION/RESPONSIBLE

Olival and Shadoc .

The RALLYESIM administration, cannot be held responsible for the problems related to its organization, apart from its interventions on planning, and the rankings which it will assume the good performance .
